The following is an examiner's statement of reasons for allowance:

Claims 1-5 and 11-30 are allowed because the prior art does not disclose or suggest a calendar corrector for a timepiece with a calendar display comprising a wheel making one revolution in 31 days and a control producing information regarding a month with fewer than 31 days, further provided with a programming means with two coaxial disks, the first driven in one direction by the wheel and the second driven in the opposite direction by the control for automatically correcting the display at the end of the month. Specifically, the prior art lacks the structure of the programming means claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
